

Exosome Quantification Report

Name: Nanoco Japan Co., Ltd
Address: 1F-1-28-8 Jeygaoka Meguro-Ku , Tokyo Japan

Measurement Results of Exosome Quantity

- Product Name: Human Adipose Tissue-Derived Stem Cell Conditioned Medium
- Manufacturing Date: December 6, 2024
- Lot Number: KMO1206

The following are the measurement results of particle quantity in the sample, analyzed using Nanoparticle Tracking Analysis (NTA method) .

Particle size distribution chart = Average of 5 measurements; Vertical axis = Particle concentration (x 10¹⁰ particles/mL)/Horizontal axis = Particle size (nm); Red = Error

Lot Number	Average Size (nm)	Particle Concentration (particles/mL)
KMO1206	91.8 ± 2.0	6.25 × 10 ¹¹ ± 4.97 × 10 ¹⁰

*1.83 × 10⁹ particles/mL

KMO1206
